## Parent's Hand Book

## From Principal's Desk.

It's a matter of great conceit for me to be the Principal of The Sirsa School. I have held the reputed post of Principal for last 37 years under CBSE and throughout this journey, I have witnessed the lives of children changed forever through the endeavour of genuinely dedicated educators, psychologists, counselors, teaching assistants and support personnel. I consider that every child is unique and born with a God gifted potential. So it always remains a great concern for me to make the students aware about that talent and bring it out by inducing them to strive for excellence in all the fields of life. I sturdily believe in our national aphorism that is 'Sataymev Jayate' (Only the truth wins). And I always encourage my students to follow the path of truth in this materialistic world. To infuse all the qualities of a good human being in the young minds of our children is also one of my decorums of education.

The Sirsa School has always motivated the younger generation not only to pursue academic excellence but also to be lifelong learners, critical thinkers, and productive members of an ever-changing global society as was envisioned by our harbinger of revolution, our former Deputy Prime minister of India Ch. Devi Lal ji Chautala. Our institution 'where quality matters the most', is being run under the aegis of Sh. Abhay Singh Chautala.

Every person is born with one or the other talent; it may be in sports, painting, writing, acting, singing, dancing or any other activity. Of course, the primary goal of The Sirsa School is to focus on the academic advancements of students and complete their education with flying colors, but in addition to secure an academic qualification, what else a student gains is equally important for future ventures. Such type of platforms are always provided by The Sirsa School to bring out the hidden talent of the students and to make them creative.

The talents, skills, and abilities of each student need to be identified, nurtured, and encouraged so that he / she is able to reach greater heights. Students need to be provided with a platform to think, express, and exhibit their skills. It is necessary

to empower them to negotiate several issues that confront them, with the teacher being a facilitator. At The Sirsa School, we provide an atmosphere to our students for multifaceted development, where children are encouraged to channelize their potential in the pursuit of excellence. For this, we are in service of society by providing our children a holistic, student-centric environment.

The achievements of an organization are the result of the combined efforts of each individual .At The Sirsa School, achievements have not been limited to classrooms. We have many feathers in our cap. 'The Sirsa School' has earned its own niche not only in Haryana but across the globe by grabbing International School Award.

Our growth in terms of quality and general acceptance in the education circles of the country is, like before, phenomenal. Our Sirsians' performance in various fields has always been exemplary.They have performed exceedingly well in CBSE 10th and 12th results. Our bright scholars showcased stupendous success by grabbing top positions.This encourages us to continue to strive harder to achieve greater heights.

The quest for intellectual and mental development is not relegated only to the classrooms, the school offers a wide spectrum of inter school competitions and tournaments for the students to participate in the constant encouragement of The Sirsa School to achieve the desired target through honest hard work and persistence. Our wide gamut of sports activities inculcates the essential virtues like punctuality, diligence and perseverance.

Spacious and refurbished building,well-ventilated classrooms, digital learning, playgrounds and library are the most important aspects of our school infrastructure. Well-equipped labs enable the students to perform lab activities more effectively. Facilities like extracurricular workshops, library, halls, games equipment, assembly area and proper sanitation are also the most crucial aspects.

It is our firm belief that communication is a key component towards a child's learning process. We have been taking various steps like conducting Debate, Declamation, Quiz, Essay Writing ensuring that every child gets an opportunity to speak in various fields to polish their skills.

A series of workshops for teachers are regularly conducted in The Sirsa School with the aim to empower the teachers and to acquaint them with the new methodologies being adopted in the field of education for a conducive teaching learning environment.

I am wishing for an excellent journey through out the new session 2023-24.
